

Discover Your Ideal Outdoor Recreation Experience: Share Your Needs with Us

A research study for people with mobility impairment

What is the study about?

We want to hear your thoughts and suggestions regarding current outdoor recreational activity so that we can create a novel program with partnership of RAD society. Participation will take approximately 60 minutes.

Who can participate?

- Are 19 years of age or older
- Have a mobility impairment
- Able to speak and understand spoken and written English
- Have access to technology and internet

Primary Investigators:
Dr. Bill Miller
